

# Kampus Buddy

## Knowledge

The Knowledgebase is a section of the app where school announcements and resources can reach every student, because we believe that knowledge is the foundation of a successful career.

## Access

Kampus Buddy ensures that no student is left behind. Our app provides each student with a personalized experience that is tailored to their needs.

## Maps

One of Kampus Buddy's key features is the interactive map of the school. Students can see their live location and receive directions to the building or venue they want to visit.

## Protection

We're committed to the safety of every student. That's why Kampus Buddy dedicates a section of the app to resources students can use if they're ever in trouble.

## Updates

Kampus Buddy collects feedback from both institutions and individual users. We are always looking to make the app better and improve the experience that your students have at college in any way possible.

## Success

We believe in enabling every student to be successful, and through the Kampus Konnect section of our app, they'll be able to effortlessly find peer support and group study sessions.
